

Public Notice  
Proposed Issuance of Clean Air Act Permit Program Permits to  
Olin Corporation in East Alton, and  
Clark Refining & Marketing, Inc. in Hartford

Olin Corporation has requested a Clean Air Act Permit Program (CAAPP) permit from the Illinois Environmental Protection Agency (Illinois EPA) for the air emissions from its brass alloy strip and small arms ammunition manufacturing facility located at 427 North Shamrock Street in East Alton. The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act. The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois. The beginning of this public comment period also serves as the beginning date of the USEPA 45 day review period, provided the USEPA does not seek a separate proposed period. CAAPP permits may contain new and revised conditions established under permit programs for new and modified emission units, pursuant to Title I of the federal Clean Air Act, thereby making them combined Title V and Title I permits.
